

# Public Procurement Market Assessment

In accordance with the Public Procurement Manual, 7.4.5, please fill in the contents of this template prior to proceeding with procurement. Please note that this assessment is to be done under confidentiality and that before any contacts with market actors, a structured plan for how to approach the Economic Operators must be developed. This is to ensure that there is a market to satisfy the needs and to secure equal treatment and clarity with the purpose of the dialogue being to develop a Specification /TOR and to define the needs for an upcoming Public Procurement, not to create wrong expectations.
